

moral and psychological support for the fulfillment of combat service tasks in the far sea zone and territorial waters

Syrian Arab Republic

guards missile cruiser "Moskva"

in the period from September 24 to January 09, 2016

In the period from September 24, 2015 to January 09, 2016, in accordance with the combat order of the commander of the Black Sea Fleet No. 47/2/0637, the Moskva guards missile cruiser went to sea to solve the main tasks:

a) Ensuring the safety of maritime military transportation, military cargo by ships (vessels) of the Navy, civilian ships chartered by Sovfracht OJSC to the ports of the SAR, by means of long-range cover from the sea direction from the area;

b) Conducting reconnaissance of the activities of the Naval Forces of foreign states on the route of passage and in the area of mission of tasks.

c) Demonstration of the naval presence (Naval flag of Russia).

Other tasks:

In the period from September 30 to October 05, take part in ZTU 30 dna

The total duration of combat service was 108 days, 18,800 nautical miles were covered. On October 05, in the S-1 area, the ship fired AS-7,9,50, RS-59, EW-5,6.

During the trip, a business call was made by a tactical group of ships of the Black Sea Fleet as part of the Moscow cruise ship, BMT Ivan Bubnov to the port of Limassol (Republic of Cyprus) in the period from November 17 to November 20, 2015.

The tasks were solved in three stages:

Stage No. 1: moral and psychological support for deployment in task area from September 24 to September 28, 2015

Stage No. 2: moral and psychological support for solving the assigned tasks in the areas of SM-1,2,3 (participation in ZTU 30 DNA) from September 28, 2015 to January 05, 2016;

Stage No. 3: moral and psychological support for curtailment in the OPB Sevastopol (from January 05 to January 09, 2016);

For the period of performing the tasks of combat service, in accordance with the Combat Order of the Commander of the Black Sea Fleet, the following tasks of moral and psychological support were set:

The main task is to maintain psychological stability and readiness of personnel to perform assigned tasks

Other tasks:

- ensuring a high level of moral and psychological state, psychological stability and readiness of personnel for selfless and active actions;

- study, assessment and forecasting of the moral-psychological and informational situation, the moral-psychological state of personnel in the course of performing combat service tasks;

- strengthening organization, discipline and law and order, fulfillment of the requirements of the Ship Charter of the Navy;

- timely, objective and prompt communication and explanation to servicemen of the emerging military-political situation in the navigation area;

- increasing the personal responsibility of each crew member for the fulfillment of the assigned task, the high-quality development and trouble-free operation of weapons and equipment, maintaining them in constant readiness for combat use;

- The development of the moral and psychological state of the personnel on the basis of the combat traditions of the Navy, the strengthening of naval friendship, mutual assistance in solving tasks at sea;

- taking measures to prevent misinformation of personal composition;

- organization of psychological training, support and rehabilitation of servicemen;

- holding cultural and leisure activities with military personnel in order to restore their moral and physical strength.

In order to solve the assigned tasks, the following were involved:

Deputy commander of the 30th DNA for work with personnel Captain 1st rank Rakauskas S.A., Deputy commander of the Moscow military district for work with personnel of the military unit 84201 of the Guard, Lieutenant Commander Vasiliev A.Yu; Deputy Commander of the Moskva GRC of the Electromechanical Warfare Unit for Work with the Personnel of the Military Unit 84201 of the Guard Captain-Lieutenant Yelnov D.O. .P, assistant commander for work with religious servicemen Ierei Kirill. 3) The general operational situation, against which the event of moral and psychological support was carried out, was characterized by the conduct of: an airborne operation of the Russian Aerospace Forces to strike at the positions of terrorist militants on the territory of the Syrian Arab Republic. Armed confrontation between the government forces of the SAR and various terrorist gangs - formations, groups. Implementation of air defense measures from the sea direction of the Khmeimim airfield of the Russian Aerospace Forces located on the territory of the SAR.

Information and psychological impact of the enemy on personal the composition of the grkr "Moscow" military unit 84201 was not found.

The fulfillment of the above tasks was carried out by carrying out a set of measures by types of moral and psychological support:

- Information and propaganda work;
- Psychological work;
- Military social work;
- Cultural and leisure work;
- Providing technical means of education - was carried out at the stage of preparation for military service in the base.

To achieve the goals of advocacy work the following activities were carried out:

Explanation of the decisions of the Supreme Commander-in-Chief on joint cooperation with the air strike group of the French Navy in the period from November 22 to November 25, the composition of the AUG, weapons, tactics of use (Avma Charles de Gaulle, destroyer URO Chevalier Paul, destroyer URO La Motte Picquet ", the frigate "Kurbet", the frigate URO "Leopold I" of the Belgian Navy)

Explanation of goals and objectives in solving the problem of air defense of the airfield "Khmeimim";

Combat informing of personnel in case of disinformation of the Navy of foreign states during the launch of a missile strike by the Rostov-on-Don submarine on ISIS ground facilities in the territory of the SAR in the period from 16.30 December 06 to 09.00 December 08, 2015;

Information support for staying on board the Moscow cruise ship representatives of foreign media, representatives of Russian media;

OGP classes with all categories of military personnel - in total, 13 classes were held with all categories of military personnel. Classes were held, as a rule, in the evening, for one hour; Russia and Ukraine.

Combat informing the personnel was carried out daily. Based on the available opportunities and the tasks to be solved, the relevant categories of servicemen gathered at least once a week and carried out information according to the classical scheme, on the remaining days information was carried out by issuing the Meridian ship radio newspaper with a review of the latest news, a story about current events in the life of the crew and congratulations birthdays. Every morning, after the rise of the personnel, an officer of the watch spoke with an information note - the information included - information about the location of the ship, actual weather, main memorable and

historical dates of this day, the main planned events for the day, birthdays were congratulated.

When preparing radio information, telegrams were used with information reviews received from the personnel department and reviews of the military-political situation received from the intelligence department of the fleet, in total more than 110 telegrams were received. In addition, the ship regularly received informational reviews of the latest news and reviews of the electronic media, which were prepared by the press service of the fleet.

The personnel were provided with periodicals of the Ministry of Defense - the newspapers Krasnaya Zvezda, Flag

"Motherland" (total received - "Flag of the Motherland" - number 12, "Red Star" - 14 numbers). Newspapers arrived on the ship in electronic form, after which they were printed, unfortunately, due to the insufficient number of consumables in limited quantities and hung out in the team canteen, near the wardroom of midshipmen and the wardroom of officers, after which they were hemmed into filings.

Depending on the evolving military-political situation in the navigation area, information bulletins were issued with the most important information, in particular, on the situation in the territory of the SAR and Iraq.

A demonstration to the personnel of news releases of Russian television was organized (32 releases in total). News, as a rule, was shown during meals at lunch and dinner, both in the cabins of the companies and in the team canteen, given the duration of the releases - 40-45 minutes, the release was divided into two parts. In addition, during the lunch break after meals, the news was shown in full.

As needed, as a rule, 3-4 times a week, the release of radio information "This Day in History" and "At the Campaign Map" was organized, all ship officers were involved in their release according to the schedule.

On days when there were no news releases, the films of the Strike Force series were shown to the personnel, telling about the history of the creation, development and use of the best weapons systems of the Soviet and Russian Army and Navy, as well as the documentary film "The Second World War - Day by Day".

The release of photo newspapers telling about the combat everyday life of the cruiser personnel was regularly organized.

Issue of wall newspapers by countries of call with information on the military-political and socio-economic situation and historical information (total - 3 newspapers).

Psychological work was aimed at:

study of the moral and psychological state and forecasting psychological processes in the crew and the behavior of military personnel in combat service conditions;

development of proposals and recommendations for management psychological processes in the interests of increasing and maintaining combat readiness, strengthening military discipline;
